📌 SHIB represents a second-generation meme asset with a massive community and non-dilutive supply, embodying cultural consensus on Ethereum as a leveraged proxy for ETH's ecosystem growth.

SHIB has achieved escape velocity with a $10B+ market cap and deep liquidity across CEXs and DEXs. Its Shibarium layer-2 solution boosts utility, driving transaction volume. Strong community sentiment and multi-chain presence make it a core holding for cultural relevance. It complements the portfolio's high-beta exposure with Ethereum ecosystem alignment.

A decentralized meme token on Ethereum, positioned as a cultural successor to Dogecoin.

𝕏 f 📋

📌 PEPE captures the second-gen meme wave with fully circulating supply and cultural resonance, acting as a proxy for Ethereum's meme economy dominance.

PEPE's $4B market cap and high DEX volume reflect strong community consensus. Its viral branding and lack of VC unlocks align with our non-dilutive mandate. Recent whale accumulation signals potential for momentum-driven rallies. It adds high-beta exposure tied to Ethereum's cultural narrative.

A meme token on Ethereum inspired by internet culture, focusing on viral community engagement.

𝕏 f 📋

📌 WIF represents Solana's meme culture breakout, a second-gen asset with non-dilutive supply, acting as a leveraged proxy for SOL's ecosystem growth.

WIF has surged to a $2B market cap with strong Solana community backing and high social media engagement. Its positioning as a cultural icon on a fast-growing chain offers asymmetric upside. Recent CEX listings enhance liquidity, supporting momentum. It diversifies chain exposure within the portfolio.

A Solana-based meme token centered on viral internet culture with a dog theme.

07 CRYPTO **POPCAT** Popcat
⚠ No price data
Tactical · medium conviction
6.3% $62,637 +0.00% +0.0%

📌 POPCAT represents Solana's second-gen meme wave with non-dilutive supply, capturing cultural consensus as a SOL ecosystem proxy.

POPCAT's $700M market cap and viral branding position it for rapid community growth on Solana. High social media engagement and DEX volume signal momentum. Its niche appeal offers asymmetric upside in a crowded meme space. It adds tactical exposure to Solana's meme dominance.

A Solana-based meme token inspired by viral internet cat culture.

09 CRYPTO **PONKE** Ponke
⚠ No price data
Tactical · low conviction
4.2% $41,758 +0.00% +0.0%

📌 PONKE aligns with the second-gen meme focus on Solana, representing cultural consensus and acting as a niche SOL proxy.

PONKE's $300M market cap and viral branding offer speculative upside in Solana's meme space. Its community-driven growth shows early escape velocity potential. Limited liquidity poses risks, but recent CEX listings mitigate this. It adds a high-risk, high-reward element to the portfolio.

A Solana-based meme token with a quirky monkey theme driving community engagement.

10	CRYPTO	**BOME** BOOK OF MEME Entry: $0.000392 Now: $0.000406 106,525,510.20 shares Hedge · low conviction	4.2%	$43,249	+5.73%	+3.6%	

📌 BOME fits the second-gen meme thesis with a content creation angle on Solana, acting as a cultural proxy for SOL's ecosystem.

BOME's $600M market cap and unique meme archival concept provide a differentiated narrative. Its community engagement offers resilience during broader meme token drawdowns. Lower correlation to pure price momentum plays adds diversification. It serves as a partial hedge within the high-beta portfolio.

A Solana-based meme token focused on meme culture and community-driven content creation.
